BackGround

In 1984 MR. Gittens at eight years old entered the United States as a lawful permanent Resident. MR. Gittens filed for Citizenship in 1997, the application (N-400) was administratively closed due to a Clerical error by USCIS. MR. Gittens is now attempting to have that resolved.

In 2006 Mr. Gittens was convicted in Boise Idaho of conspiracy to sell drugs. Up until that conviction Mr. Gittens had no criminal record, nor was he suspected of being involved in any criminal activity by any law enforcement.

After completion of his sentence, Mr. Gittens spent close to two years in immigration prison because of said conviction. Mr. Gittens was ordered deported around May 10th 2013 and was subsequently released and returned to New York where he finished his federal supervised release without incident. He also had an order of supervision from I.C.E. where he also had no issues.

Mr. Gittens has worked as an Emergency Medical Technician from 2015 and in 2016 began to work in the 911 system as a first responder. Mr. Gittens worked 12 hours 4 days a week during the pandemic and has consistently proven to be an asset to his field.

On or around June 11th Mr. Gittens reported to I.C.E. at 26 Federal Plaza in New York where he was told he couldn't be arrested because of his status. On July 22nd I.C.E. emailed Mr. Gittens to report again. Mr. Gittens complied.

Mr. Gittens was arrested by I.C.E on July 29th 2025. The I.C.E officer stated he had no choice, that it wasn't his decision. He stated that he didn't have travel documents and wouldn't be able to remove Mr. Gittens. As Mr. Gittens has been on supervision for over 12 years without any issues. The I.C.E officer "Melo Santos" stated that he knew that he couldn't remove Mr. Gittens, he stated that he still had to hold me, even if he had no travel documents and no other country would take me because I wasn't from there. They had already contacted the British and Barbados embassies respectively and couldn't obtain travel documents.

I.C.E then placed Mr. Gittens in a 30 by 20 foot holding cell with up to 75 other people for four days with no mattress or bed just cement floor and silver burn sheets for blankets. Mr. Gittens has a spinal injury from an M.V.A. He has spinal stenosis C-4-L-5 so being on the cement was detrimental. Mr. Gittens was subsequently transferred to GEO ~~the~~ Alexandria Staging where he sat for another 3.5 days. He is now at Winn Correctional facility.

MR. Gittens ask the Court humbly to release him back to his life and his family. His Mother, his grandmother are both Citizens. He takes care of them as they take care of him.

MR. Gittens Criminal Case is going to the 9th Circuit appellate Court for review. The District court has stated that it does have jurisdiction to reopen the case because it was to be done in 2008. At that point MR. Gittens was in segregation because he was stabbed in the face and neck at NEOCC in Ohio. Therefore not only is MR. Gittens not a flight risk, but he has every reason to do the right thing and should not be held captive for no adequate reason. *Zadvydas - Davis*

MR. Gittens has included his brief for the vacation of his only conviction or arrest criminal to give the Court a better understanding.
