**MOTION TO SUPPLEMENT / EXPAND THE RECORD IN SUPPORT OF TEMPORARY
RESTRAINING ORDER**

Petitioner, Abdullo Idiev, proceeding pro se, respectfully moves this Court for leave to supplement and expand the record in support of the pending Temporary Restraining Order (TRO) in this action brought pursuant to 28 U.S.C. § 2241.

In support of this Motion, Petitioner states as follows:

This case is currently before the Court on a pending request for a Temporary Restraining Order and related emergency relief.

The supplemental materials submitted with this Motion directly relate to the Court's evaluation of irreparable harm and due process violations, which are central to TRO analysis.

Since the filing of the original habeas petition and TRO motion, Petitioner's physical health has significantly deteriorated while in ICE detention. The circumstances described in the attached declaration and exhibits arose after the initial filing and therefore could not have been submitted earlier.

The supplemental materials include a Declaration under Penalty of Perjury and photographic exhibits demonstrating the deterioration of Petitioner's health during detention. These materials are submitted solely for the purpose of addressing irreparable harm and ongoing due process concerns. Continued detention under these circumstance pose a risk of ongoing and irreparable harm, and the materials submitted are directly relevant to establish that interim relief is necessary pending adjudication of the habeas petition.

WHEREFORE, Petitioner respectfully requests that the Court grant leave to supplement and expand the record to include the attached declaration and exhibits for purposes of considering the pending TRO.

Respectfully submitted,

**DECLARATION IN SUPPORT FOR
TEMPORARY RESTRAINING ORDER**

DECLARATION OF ABDULLO IDIEV

I, Idiev Abdullo, declare as follows:

I am the Petitioner in this habeas corpus action filed pursuant to 28 U.S.C. § 2241, and I am currently detained in the custody of U.S. Immigration and Customs Enforcement (ICE). I submit this declaration based on my personal knowledge.

This matter is currently before the Court on a pending request for a Temporary Restraining Order (TRO).

Since the filing of my original habeas petition and TRO motion, my physical health has significantly worsened while in ICE detention.

The health deterioration described in this declaration occurred and progressed after the initial filing of my habeas petition, which is why the attached materials were not previously available for submission.

Despite seeking medical assistance while in detention, I have not received adequate or effective medical care for my condition, and my health continues to decline.

Continued detention is causing ongoing and irreparable harm to my health, and the current conditions of detention are exacerbating my medical condition.

I have attached photographs as exhibits to this declaration. These photographs visibly reflect the deterioration of my health during my detention and are submitted solely to assist the Court in evaluating irreparable harm and due process considerations relevant to the pending TRO.

The harm I am experiencing cannot be remedied through delayed relief, and appropriate medical evaluation and treatment cannot be sufficiently provided in detention.

Release or alternative supervision would allow me to seek necessary medical care from qualified medical professional and would prevent further irreparable harm while the Court adjudicated my habeas petition.

These supplemental materials are submitted only in support of the pending TRO and do not alter the merits of the underlying habeas claim, but rather provide updated facts relevant to the Court's equitable analysis.

I declare under penalty of perjury that the foregoing is true and correct.
