The Honorable Leslie Abrams Gardner, Chief Judge, ✓
The Honorable Judge Clay D. Land
United States District Court
Middle District of Georgia
120 12th Street/P.O. Box 124
Columbus, Georgia 31815

RE: Case number 4:26-cv-00131-CDL-CHW and 6:26-cv-00709-CDL-CHW

Dear Honorable Judges Gardner and Land:

First, I hope this letter finds you well.

This letter is intended to bring your attentions to the amount of abuse the ICE, Stewart Det. Ctr., the law firm representing me (Kuck Baxter LLC) and now it seems this Honorable Court and as a result of following the local rules (LR 5.5) may be the Clerk of the Court (unintentionally) bringing upon my family of young children (10 years and younger) and myself. I am writing this letter in addition to my pending (undelivered) pro se Motion, Objection to the Report and Recommendation ("Object R & R), as well as my personal Petition for Bond.

Before I start with the issues, please note that I am 68 years old (in a month), entered the U.S. legally on 2/5/1977, and was residing legally for years, before the life of this computer engineer turned upside down. I have been living in the U.S. for nearly FIFTY (50) years, and in the same town for nearly thirty-four (34) years. So, unlike most other non-citizens, I am entitled to the Constitutional relief that others are may not be entitled.

Now, allow me to briefly numerate some of the issues for your better understanding of just my situation and at the end, I will touch on the effect of such abuse on other similarly situated "alien"s. I described my personal situation in my pro se Object to R & R and my petition for bond, which seems this Court cares less to allow their entry into the records, just because:

1. My loving wife who is not fluent in English and has no idea of law, wanted me home, retained the law firm of Charles Kruck – whom from the first conversation, Mr. Kuck's fraud and deception surfaced - told/claimed that he/firm will file a Habeas in 2-3 days and have me home in 2-3 weeks. The issues are touched with exhibits in my Object to R & R, its Supplemental Object. to R & R, and Motion to Set-Aside Denial of counsels withdraw. The Court/Your Honors must realize that not all pants fit all individuals. My wife's and my issues with the firm and its attorneys are another matter for another time, another court/hearings, different agencies to review. But, for now, it is my life and my family (to include my children's) well-being are at stake and risk of spinning in spiral and out-of-control, harming this young family – since my wife is not able to handle all affairs (assigned to me). Our children have become disobedient, overweight, grades dropped, and lazy... My extended detention only impacts them in more negative and harming this family. Hence, this Court extending time to a law firm to file a response – when the firm has not truly shown any interest to protect me nor my family but, has been harming my wife with repeated threats, not communicating with me the client, NOT PROVIDING me copies of what they file. The Courts decision is NOT a enforcement on the firm but punishment on my INNOCENT family/kids. If this firm cared, it would have communicated with its

client (ME). In order to place the firm on track, my wife, a family friend, and **even my ten (10) years old daughter (to intervene), had to repeatedly remind the firm to "communicate with your client", leave my mom alone.** I had to send the firm two FAXED LETTERS, asking them to STOP, CEASE and DECEASE threatening my wife and harming them with additional stress and abuse. This firm had only TWO (2) (unpleasant) conversation with me (each was delayed by 30-45 minutes excuses) and conversations lasted about 15 and 30 minutes (as she/Claffey) was in rush. The petition she filed on 1/23/26 was not faxed to me until 2/4/2026 (even though she had a fax number for me – for my immediate receipt). The Clerk of the Court and the DHS counsel sent me scheduling order and DHS's Motion to Dismiss ("DHS-MTD"). As of this writing (5/18/2026), I have not received firm's Motion to Withdraw nor the Court's Order denying its motion.

So, as you will notice with the preponderance of evidence (although not a proper time now), this firm may be the best in the country, but the lawyers do not have my family's best interest at heart or mind - since the moment my wife paid all their fees and associated charges. Heck, they did not want to communicate with me nor read the actual important facts that makes my case. See pro se Petition for Bond and Object to R & R and compare with the firm's argument in its petition for habeas or Respond to DHS-MTD. This is an example of a law firm who believes it is above its clients needs/wishes, look down on them and abuse their families. I heard that other detainee(s) in this detention feel similarly.

Therefore, not all shoes fits all feet. This Court MUST PLEASE STOP this agonizing relationship and allow my pro se pleadings proceed expeditiously and set-aside the denial of firm's withdraw – so that my family would be relieved from the extra stress this firm is causing upon my kids, wife, and I.

2. Stewart Det. Ctr. mail system:

As stated in the Motion to Set-Aside Denial ... and Supplm. Object to R & R..., we, the detainees are disabled, forced to follow directions to our disadvantage. One factor is mailing. I personally work very hard to make certain that my out-going-mail is ready to leave Stewart in early morning. I typed my Object to R & R on the afternoon of May 5, organized that night with anticipation of taking them to mail room before mail leaves Stewart (10:00AM, only on weekdays). Unfortunately, we are not allowed to walk down the hall (about 800-1000 feet) to the mail room. We must be escorted (a rear occurrence). If we wiggle ourselves (somehow) to the mail room, we will not be helped and immediately sent back. Hence, we have to rely on unit manager for our in/out mail. Without failure, each time our mail (that is supposed to leave this building that day), is held up for 2-3 days; because, either unit manager forgets to take our mail down the hall, forgets to take the required form for the postage fee out of our account, or simply be deception claim that mail runs all day- knowing that the destination is not the mail-room. Mail sits for additional days, before leaving the building and entering the Postal Service system. Now, the issue also becomes the less informed person in the mail room, may not know value of stamp or understand how a detainee wishes to sent the mail, so it gets returned to the detainee for another day or two of delay.

3. Then, we have to be at the mercy of the great U.S. Postal Service ("USPS") to send our mail addressed to this Court (20-25 miles down the road), ends up in Gainesville, Florida, to finally be re-routed to reach this Court. My Object to R & R was placed in the hands of Unit Manager on May 6 at 8:00 AM, entered USPS on May 8, and now has been sitting in Gainesville, FL since May 12. See Exhibit A (the USPS tracking # [REDACTED] for information for the Object. to R & R or ** 5900 20 - for the Motion to Set-Aside denial... and Suppl. Object. to R & R (handed to the Unit Coordinator on May 11) which did not leave Stewart till May 13 and is not clear where it is now. See

also a \$5.00 check which was requested on May 4, 2026, and because of the managers' and admins organization (lost the request form or the check), it had to be re-ordered on May 7th and is claimed that it left Stewart on May 7th, but the Clerk has not received.

4. While paragraphs 1-3 (above) create these long and agonizing delays for a pleading to reach a court, it further means, delay or rejected (late filing), simply meaning a further delay for a court review on the faith of a person who claims 'unconstitutional detention'. This detention is extended by all of the factors above.

5. Then, the MOST IMPORTANT factor is the ICE lack of interaction. See Exhibit 1 pages 2-4 (especially pages 3-4). The continuous pleadings to different ICE agents (assigned to other detainees), who all state that "*your deportation office is someone else and I am going to let him know*". All written requests are responded that, "*I forwarded your concern to ICE officer...*" or similarly meaningless responses to ALL my questions.

Finally on Friday, May 15, 2026, I stopped an agent for the third time in a month. Mr. Fleet and his partner (a tall young black skinny gentleman with glasses), searched on their phone to tell me that my file has not been looked at since Knowles' entry on January 11, 2026. "*He has been moved elsewhere and his replacement (Simon ton), has been out of the office and now on vacation.*" WOW!

While this Court requires indefinitely detention until the person is removed from this Country, although the law, the Constitution, and precedents of higher courts disagree; here, EVERY-WEEK, I have been making 2 weekly requests to speak with my deportation office, or a supervisor, and no-one is around to respond to me, let alone process a travel document from Iran (a country that U.S. is at War with) and the laws of this nation clearly states that "an alien can not be sent to a war zone".

To add insult to this injury is the fact that INS/ICE lost my passport in 1984/5. Then during my 2003 detention, tried to obtain a TD from Iran (when the relationship was MUCH better) and Iran requested the ONLY document I had (INS/ICE lost)- "old 'Original' Passport".

Now Iran is getting bombed, its ports are closed, no flights in or out, and there is NO possibility of deporting ANYONE (let alone me) to Iran. Plus, my wife is a DOD employee, which makes deportation to Iran impossible.

To further insult on my family of young kids, No agent is around to even look at my file, nothing has been done since January 11, 2026 on my file - for ICE or anyone to even apply for a TD for me, let alone attempting to ship me to Iran.

And when I have been **repeatedly** begging ICE to take me to Mexican border so that I could voluntary walk the border in an attempt to leave the U.S. on my own - a task that INS/ICE have been wanting to complete since 1991-92, ICE does not respond.

Nor do my letters to Director Todd Lyons of HQPDU (Headquarter...) or the Director of Atlanta Field Office in March, 2026, receives any response. *EXH. 3 & 4 (1st pages of letter)*

While, this Court believes a detainee must remain in detention for 180+ days to file a habeas, but there MUST be a rational to such decision that would be just. My six month detention is within another 20 days, as is my daughter's birthday (I already missed a lot of their milestone events during the past five month). Even by this Court's standard of mandatory six-month each time an alien is detained (against all decision of other courts - to include sister courts of this Circuit from Florida to Alabama), the 11th Circuit itself, many decision of other Court of Appeals, and finally 3 cases of Supreme Courts regarding the detention period (cumulative prior detention); THIS COURT, must understand that ICE can not just detain (without cause or violation) a father of young kids and a very devoted husband in prison and throw away the key.

Because I did not anticipate this letter to become this long, I am not going to detail what I initially intended to discuss about the condition of confinement in Stewart. The list is long - such as lack of true medical and dental cares, lack of food for grown men (my children's portion is larger than what we are given), we are told to order food through commissary, lack of access to law, lack of access to typing, no internet and many other issues... In comparison, the same operator (CoreCivi) operates that criminal prison not far from here and when the criminal prisoners enter this facility for deportation, they magnify the lack of services/amenities much better than I can. Minding you that this "CIVIL" hold is much worse than the criminal prison (designed to punish criminals for rehabilitation).

During the years that I was teaching in colleges and universities, I came across students who were single parents (mostly very young mothers ages 18-30), attempting to chase the dead-beat fathers who left the state and were avoiding their responsibilities to the child/children they brought to this world. The mothers' attempt to provide these dead beats' addresses, employments or other relevant information to the child support agencies, would not result in anything. In many occasions, I had to involve beloved Georgia Congressman Norwood, Governor/Senator Johnny Isakson or other house or representatives of Georgia or the states that the deadbeats were working, so that their children would receive support. As I was pursuing these crusade to help those Americans, I promised myself not to have children until I am grown up to be a responsible person. I was blessed with my first child at the age of 57 and have been spending ever moment of my life ever since to make certain I am not the dead beat father. Yet, ICE's illegal detention has taken the children's life, freedom, and performing their daily tasks

As this Court is aware, this Circuit has recognized that revocation and detention of an alien who is under Order of Supervision ("OSUP"), who did not violate his OSUP or condition of his release is in violation of the law.

In conclusion

Respectfully said,

1. Although this Court believes that non-citizens' six-month imprisonment (with every detention) is mandatory without ICE/DHS providing any reason why it detained the alien, but the other courts around the country to include the higher courts repeatedly rejected this ideology.

2. Moreover, this letter was intended to present that my family and I have no interest in the law firm of Kuck and Baxter's representation since they not only did not discuss the true facts of my ICE detention and why I can not be removed, but also, their representation has been noting but continued threat on my wife who does not speak English well, and definitely does not understand the law and the further impact they have had on my children. The firm's representation has been ineffective and damaging to my family. I beg you to set -aside the denial and allow my own prose pleadings to be expedited for a decision.

Respectfully submitted,

Hamid Samadi

Stewart Det. Ctr.,
146 CCA Rd., Lumpkin, GA 31815

Attachments -plus to prior pleadings before this court and the letter to Mr. Dave Bunt (Clerk of Court).

Exhibit 1 is attached to Petition for Bond (all four pages). Every week I add to the bottom (meaning page 4 - here has additional content)
