Honorable Judge of the U.S. District Court, Middle District of Georgia,

My name is Cheryl Wright Narvaez, and I am the wife of Jeison David Narvaez Martinez. I have been acting as his next friend in this habeas corpus petition I filed the 2241 on his behalf, signed by me, because he has been unable to do so due to confinement and language barriers.

Since arriving in the U.S., he has attended every biometrics appointment required, except for this most recent one, because he was placed in isolation due to illness, and the biometrics were not conducted in detention. Despite being ill, he has complied with all prior requirements. However, he is now suffering from rapid weight loss, severe illness, and is unable to sleep. His mental health has deteriorated.

He is not a flight risk; as a U.S. citizen, I will ensure he appears at all future hearings. I filed the 2241 form in a timely manner, but due to delays in the postal service from Virginia to Georgia, the court may have received it later than intended. I completed all steps, including the form, and made every effort to meet the deadline. Moreover, he has been denied due process and has not been given a fair opportunity to present his case. His constitutional due process rights have been violated. He has a sick mother-in-law whom he helps care for, and I, as his wife, am overwhelmed trying to manage everything alone. His circumstances are unique, and he is not like other detainees in that facility. Thus, we respectfully request that the court reconsider the dismissal of this case and grant an extension so that Jeison can fully present his asylum claim with the fair trial he deserves. Thank you for your attention to this matter."

Your Honor,

I write with urgency to highlight the dire conditions my husband, Jeison Narvaez Martinez, faces at Stewart Detention Center. Yesterday, during my visit, the temperature soared to 110 degrees. He awoke drenched, fainted twice, and is suffering from severe headaches. The facility is overcrowded—people sleep on floors, in canoe-like arrangements, and fights have broken out. The food is inedible, with moldy bread.

Additionally, he is being locked in a hot room for hours. Jeison has never had a disciplinary issue; he is a model detainee. We request his release with an ankle monitor so he can be home while his appeal proceeds. His absence is devastating—his mother-in-law's heart condition worsens daily as she worries about him. We implore the court to ensure a fair appeal by allowing him home to be with us.

Cheryl Wright Narvarez

Honorable Judge of the United States District Court for the Eastern District of [illegible]

My name is Cheryl Wright Narvaez, and I am the wife of Jaime David Narvaez Martinez. I have been writing on his behalf to ensure that with the holidays coming up [illegible] this 28 U.S.C. § 2241 petition on his behalf but [illegible] have prevented him from [illegible]

Since arriving in the United States, Mr. Narvaez Martinez has made every effort to comply with all immigration requirements and has attended every scheduled immigration appointment. The only exception was his most recent appointment, which he was unable to attend because he had been placed in medical isolation due to illness while in detention. Despite his circumstances, he has consistently communicated his willingness to comply with all government requirements.

Mr. Narvaez Martinez's physical and mental health have significantly deteriorated while in detention. He has experienced rapid weight loss, seizure illness, difficulty sleeping, and a substantial decline in his emotional and psychological well-being. These conditions have greatly impaired his ability to advocate for himself and participate meaningfully in his legal proceedings.

He is not a flight risk. As his wife and a United States citizen, I am fully committed to ensuring that he appears at all future hearings and complies with any conditions the Court may impose. He has shown through his prior conduct that he respects the legal [illegible] and intends to follow all requirements.

I also respectfully note that I filed the § 2241 petition in a timely manner and made every effort to meet all applicable deadlines. Any delay in the Court's receipt of the filing was due to postal delivery delays between Virginia and Georgia and was not the result of neglect or lack of diligence on my part. I completed the required forms and took all reasonable steps to ensure timely filing.
